

2026 Asia-Pacific Workshop on Molecular Spectroscopy

--- Please share this circular with your colleagues who might be interested to join ---

The 10th Asia-Pacific Workshop on Molecular Spectroscopy will be held on November 3-7 2026 as a hybrid meeting in Sapporo, Japan. We hope to continue fostering cross-border communication and collaboration with this event. All participants, in particular young researchers, are encouraged to submit oral contributions. Please bring your newest research and use this opportunity to interact with fellow researchers from all over the world.

Website: <https://awms-meeting.org/2026/index.html>

Topics

- New spectroscopic techniques and instruments
- Precision measurements
- Application of spectroscopy to dynamics
- Spectroscopy in the gas phase
- Condensed phase spectroscopy
- Ultrafast spectroscopy
- Theory and analysis

Dates

November 3 (Travel Day, Welcome and Registration)

November 4, 5, 6 (Scientific Program)

November 7 (Travel Day)

Venue

Auditorium at Institute of Low Temperature science, Hokkaido University, Sapporo Japan.

<https://www2.lowtem.hokudai.ac.jp/en/about.html#5>

Registration fee

As customary for the AWMS, we aim to keep the cost low to encourage participation of young researchers. Registration fees will be posted at the meeting website.

Abstract submission and registration

Details will be posted before the end of August.

Local organizing committee (LOC):

Masashi Tsuge, Hiroshima University (mtsuge@hiroshima-u.ac.jp)

Jun Miyazaki, Tokyo Denki University

Masaaki Baba, Kobe University
